

Smart Room Tablets

Your In-Room Digital Concierge

INTELITY's smart-room tablets transform every guest room into an interactive, revenue-generating touchpoint—connecting guests to services, staff, and experiences with a single tap.

What It Does

A fully branded, in-room digital hub that puts your entire property in your guest's hands.

- Digital compendium (goodbye outdated binders)
- In-room dining and mobile ordering
- Service requests (housekeeping, maintenance, concierge)
- Hotel information, amenities, and local recommendations
- Smart room controls (lighting, temperature, etc.)
- Messaging with staff
- Greet guests by name

All delivered through a sleek, intuitive interface designed to match your brand.
